

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

New South Wales

report date 27 Jan 2012

All categories realised a cheaper trend as multiple processors reduced rates. Mixed export demand signals and the high A\$ have softened processor enquiry, with some contributors resigned to working at reduced capacity. Supplies are also adequate, with a number of cattle consigned for the coming weeks. The public holiday will also affect demand, with fewer cattle required in the short week.
