

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

New South Wales

report date 11 May 2012

There was only limited change made to rates from one contributor on grown steers, as the remaining contributors opted to leave rates unchanged. Cattle consigned direct are flowing freely with some contributors booked a week or two in advance. Demand continues to be a limited factor behind current rates.

A regular contributor is not offering rates and therefore no trend if available.
