

## Feeder report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Eastern States

report date 13 Jul 2012

Most contributors left their rates unchanged with only a handful increasing slightly. The recent rain has disrupted supply most noticeable in the northern areas, while the cool winter conditions have impacted on quality.

Physical market prices were mixed, although the larger numbers had minimal impact.

A regular contributor is not providing quotes and no trend is available on paddock rates.
