

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

New South Wales

report date

20 Jul 2012

The solid rain last week, particularly in northern areas, is expected to impact on supply. Most contributors are taking a wait and see approach, and have left their rates unchanged. Only one contributor lifted 5c to 10c/kg cwt across the board. The winter conditions combined with the wet weather, is having an effect on the quality of some cattle. Demand for product is still weak although it is hoped that the end to school holidays could assist domestic enquiry.

Grade	Weight Range (cwt kg)	Dentition	Muscle Score	Fat Score	Low Price (c/kg cwt)	High Price (c/kg cwt)	Average (c/kg cwt)	Trend
Vealers
