

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Wodonga

report date 17 Jul 2012

Yarding Change 1200
-800

comparison date 10/07/2012

Numbers fell significantly and quality was fair across most grades with plainer cattle showing signs of the wintery conditions. Trade cattle numbers declined with the majority of trade lines offered consisting of medium weights. Feeder steers were limited while there was a mixed supply of secondary heifers. Grown steers and bullocks were in reasonable numbers and quality was good. The regular gallery of buyers were present and competition was steady across well finished lines.

The reduced supply of mixed quality vealers sold firm for the very best vealers, while plainer types eased up to 8c/kg. European cross steers and heifers ranged in price from 214c to 246c/kg. Yearling steers suitable for lot feeding sold to a dearer tend of 9c and more in places and most of the better C2 steers which were to feed made from 202c to 212c/kg. Medium weight yearling heifers suitable for the trade were 4c cheaper averaging 187c while the steer portion sold to an average price of 201c topping at 208c/kg.

The good quality selection of grown steers and bullocks sold to strong demand with prices holding firm to 1c/kg cheaper. Most of the better quality C3 and C4 steers made from 185c to 208c/kg.
