

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Great Southern Saleyard

report date 22 Nov 2012

Yarding Change ¹³²⁷/₄₄₂

comparison date 15/11/2012

The larger yarding was due to increased supplies of new season vealers with reasonable numbers of trade and store yearlings also available. Heavy weight steer and heifer supplies remained tight with lower supplies of cows available.

The vealer yarding continued to lack weight with most being light weights. Generally the market remained firm with equal demand realised from both feeders and restockers. Trade weight yearling steers and heifers were again purchased predominately by feeders and restockers, with both enjoying marginally higher price levels.

Heavy weight steers recorded a strengthened processor demand and dearer prices, with this also the case in the smaller cow yarding comparative to the previous sale.
