

Feeder report - cattle

Market information provided by MLA's National Livestock Reporting Service

Eastern States

report date 23 Aug 2013

Prices across the eastern states were mainly unchanged week-on-week, yet reports in the south suggest some rates to be slightly dearer due to limited supplies across some categories.

For the physical markets, trends were more varied, with prices lifting up to 10¢ in places, yet easing by up to 14¢/kg for some categories.
