

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

Queensland

report date 13 Dec 2013

Rates were generally unchanged however one contributor was again offering rates across most categories as the annual shutdown period approaches. Grain fed prices improved 5¢/kg cwt, while a reduction in supply in the north has seen many processors head south to secure numbers.

Please note some categories are not quoted due to one contributor offering rates again.
