report date 06 Jan 2014

Yarding Change $\frac{290}{0}$

comparison date 30/12/2013

The forecast for some rain reduced the number of stock penned and apart from some supplementary fed yearling heifers the standard of the remainder of the yarding was very mixed. Not all the usual export buyers were present and the hot, dry weather resulted in very little restocker support, however feeder buyers were active when the opportunity arose.

A handful of vealer heifers made to 160c to average in the 150c/kg range. The occasional lightweight yearling steer sold to feeder operators at 190c and D muscle lines averaged 124c/kg. A fair sample of supplementary fed yearling heifers averaged 163c and sold to 168c and a good selection of heavy weights averaged 164c and also made to 168c/kg.

Medium weight plain cows averaged 92c and sold to 104c and a few 3 scores made to 125c/kg. Good heavy cows made to 144c, to average 134c/kg. Heavy bulls made to 149c/kg.

Category Weight	Sale Prefix	Muscle Score	Fat Score	Head	Live Weight c/kg				Estimated Carcase Weight c/kg			Estimated \$/Head
