

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

NVLX Barnawatha

report date 31 Mar 2015

Yarding Change 1500
-500

comparison date 24/03/2015

Numbers declined and quality was fair with mixed quality supplies of young store conditioned yearlings and weaners suitable for lot feeders and restockers. Vealer numbers were lower, while heavy grown steer and bullocks supplies were limited. A full field of domestic and export buyers were in attendance, however there were fewer feedlots buyers operating. Local restockers were in attendance and active across plainer lines of stock.

Vealers sold to much stronger competition with European vealers and their crosses selling from 220c to 263.6c/kg. Yearling steers suitable for the trade sold to stronger price trends, aided by increased competition on yearlings which were supplementary and silage fed. Yearling trade steers to slaughter averaged 239.8c with prices lifting 9c/kg. Medium weight yearling heifers suitable for the trade sold to strong demand with the supplementary fed portion igniting competition, which resulted in a top price of 263.2c/kg.

Despite feedlot competition having decreased, the well-bred C2 medium steers sold 10c higher making from 213c to 246c/kg. Lighter weight steers struggled to attract feedlot competition and prices eased 5c/kg. It was a limited selection of heavy grown steers and bullocks which sold to solid demand from southern and northern processors. Heavy grown steers and bullocks were generally 4c/kg dearer. The better finished steers and bullocks made from 220c to 244.6c/kg. Heavy cows were in shorter supply which resulted in a dearer trend of 13c while leaner grades lifted 5c/kg. Heavy cows made from 184c to 196c and leaner grades ranged from 164c to 186c/kg.
