

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

Victoria

report date

25 Sep 2015

The Victorian over-the-hook indicators improved week-on-week, following last week's firm to slightly easier trend. Young cattle recorded the strongest growth, up 10¢/kg cwt on average. Interestingly, with strong improvements in Queensland and NSW grids over recent weeks, the premium of the Victorian over-the-hook steer indicators has been mostly eroded while the cow indicators are at a discount.

Grade	Weight Range (cwt kg)	Dentition	Muscle Score	Fat (mm)	Average (c/kg cwt)	Trend
Yearlings
