

## Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

### New South Wales

report date

19 Feb 2016

The NSW over-the-hook cattle indicators lifted this week however some contributors kept rates unchanged. Non-MSA yearling and grown steers improved 10¢, while MSA lines saw more modest gains. Cows recorded a significant lift, as a result of ongoing tight supplies and following a small improvement in the US imported lean beef market.
