AuctionsPlus Market Comments: Week Ending 2nd May

By: Anna Adams

Sheep and lamb numbers remained static this week at 38,540. Cattle numbers on the other hand, which had been more affected by Friday public holidays, tripled to 9,124 head. The sudden increase in numbers offered on AuctionsPlus as well as in physical markets after interrupted trading weeks had an impact on clearance rates, and prices eased.

Typically for this time of year, the proportion of scanned in lamb ewes is increasing compared to unjoined ewes, and this week showed a significant price differential. Young scanned Merino ewes to drop a crossbred lamb sold from \$110 to \$150.50, and rising four year old ewes with a September skin, SIL to Poll Dorset sold for \$151. Unjoined young ewes sold from \$71 to \$86.50. Unjoined lines of mixed age ewes sold from \$58 to \$86.50, and scanned mixed age lines made \$96-\$110. Older ewes sold to restockers made \$53 to \$91.

Few traditional first cross ewes were offered, however other crossbred ewes sold well. Dohne ewes in lamb to terminal sires made from \$130 to \$155.50, and unjoined hoggets sold for \$80.50. Joined Composite ewes made \$129, and scanned Border/East Friesian/Merino ewes made \$150 in Hamilton.

Merino wether lambs recorded tops on par with recent weeks; however prices were very variable dependent on quality, weight and wool length. Prices started at \$31 for light shorn lambs, and the top price was again achieved by quality Riverina-bred lambs, with August/September drop, 41kg Collinsville & Centreplus blood woolly lambs selling for \$101. Grown wethers returning to the paddock sold from \$57.50 to \$83.

Suitable sheep met good processor competition this week, though many still went to restockers. Younger wethers to slaughter made 302c-449c, and older lightweight mutton sold from 242c to 409c including skin value.

Though many weaner cattle that usually come out of northern NSW at this time of the year have already been sold, we did see the first big offering for the season this week. A combination of mostly light cattle being offered, as well as still prevailing dry conditions in much of the area meant the going was tough for these cattle today.

In an unusual, though not unexpected trend we saw prices increase with weight, with stronger demand for heavier weaner cattle that were available. Steers weighing less than 250kg sold from 169c to 236c to average 208c, and heifers trailed by 38c on average, with prices from 146c to 199c. 250kg-300kg steers made 190c to 243c to average 212c, and similar weight heifers sold from 164c to 205c, averaging 183c. Few 300kg+ cattle were offered, and sold from 217c to 237c to average 226c. The top price weaners were Hazeldean & Rennylea blood Angus steers out of Harden weighing 312kg and selling for \$720. Yearling steers topped at \$775 for 353kg Pathfinder blood Angus steers out of Penola. Weaner heifers sold to a top of \$530 for Charolais/Angus cross heifers weighing 258kg.

PTIC females were also harder to sell than of late, though those that did sell achieved better prices, and no first calf heifers found a home. Young cows made from \$735 to a top of \$1040 for rising three year old Angus females at Hay. Heifers with their first calf at foot sold from \$785 to \$1080, and other cow/calf units made \$680 to \$905.
