

Feedlot Manager

Our clients manage over 27,000ha of premium land throughout NSW.

The primary tasks of the Feedlot Manager are to:

- Apply the provisions of the Company Cattle Protocol
- Animal awareness and continual improvement of animal welfare
- Drive a culture of WHS excellence through personal practice and ensuring compliance with the company's safe systems of work.
- Manage and direct pen riding staff in line with the Cattle Protocol
- Plan and direct work schedules in conjunction with Livestock Manager
- Assist with the development of infrastructure

Essential

- Prior Managerial or Leading Hand Feedlot experience
- Demonstrated ability in low-stress handling
- Competent Riding Skills
- Ability to provide leadership, training & development
- Ability to communicate and influence professional workforce
- Intermediate computer skills

Desirable

- Tertiary qualification in Agriculture or related field would be advantageous

The employer offers a professional working culture within a strong team environment, and provides access to training and development and the ability to move throughout the organisation.

Quality accommodation is available on site.
