

FEEDLOT MANAGER

The Stanbroke Group is a unique agricultural business with extensive cattle breeding properties, cattle feedlot and state of the art beef processing operation at Grantham.

Stanbroke's modern, award winning feedlot is situated 25 kilometres south west of Chinchilla.

We are currently seeking to appoint a Feedlot Manager and are looking for a person who wants to make a contribution to a growing business and can lead a highly productive team.

The role is responsible for the daily operations of the feedlot, commodity purchases and some irrigated and dry land cropping. The position reports directly to the Chief Operating Officer.

Essential requirements for the position:

- **Extensive experience in managing a sizable feedlot.**
- **Knowledge in nutritional pathways and different feeding rations.**
- **Proven experience in managing livestock handling and animal welfare.**
- **Experience with steam flaking milling methods and procedures.**
- **Excellent communication skills, both written and verbal.**
- **Proven commitment to safety and training.**
- **Ability to manage, supervise and develop staff.**
- **Good decision making skills.**
- **Ability to meet deadlines.**

An attractive remuneration package including accommodation will be provided to the successful applicant. School bus and sealed road access.

If you are interested in this position, please send your resume outlining your skills and experience to hr@stanbroke.com.

Further information can be obtained by contacting Ross Sticklen. All applications will be treated with genuine confidentiality and close on November 17.
