

## **Livestock Manager (Sales, Marketing & Management)**

Crown State Meat Company is a dynamic, vertically integrated livestock company producing premium beef & sheep to market. From paddock to plate, we breed and finish our livestock throughout company farm properties before they are processed at our beef and small stock processing plant in Coonabarabran, NSW. An opportunity currently exists for a Livestock Manager, based in Merriwa, NSW to drive our livestock enterprise.

This position encompasses the purchasing, marketing and management of cattle and small stock in all the major segments of the beef/sheep markets, as well as management of livestock throughout company farm properties.

The ideal candidate will be highly motivated with an extensive background in the purchasing, marketing and management of beef and sheep. He or she will be required to procure clients and ensure that livestock purchased will add value to the overall agribusiness enterprise. Knowledge of beef/sheep trading, feeding and breeding systems are expected. Excellent organisational and effective communication skills and ability to work within a team are required. The Livestock Manager will be reporting directly to the Company Director in cooperation with the rest of the Crown State Management Team.

An attractive salary packaging will include a four-bedroom homestead and company work vehicle for the successful applicant.

The ideal applicant will have :

- experience in beef/sheep marketing, purchasing and negotiations
- in depth knowledge of beef/sheep supply chains
- proven leadership and customer relationship qualities
