

### **LIVESTOCK MANAGER- WALLUMBA FEEDLOT**

Wallumba is owned by MDH Pty Ltd and is situated at Condamine in QLD. The feedlot holds 10 000 head supplying both Domestic and International Markets.

Responsibilities include, but not limited to

- Reporting to Operations Manager
- Good communication skills
- Feedlot mill operation, maintenance and flaked grain production
- Ration mixing and delivery (including truck-loader operation)
- Feed Allocation, management of cattle feeding system
- Pen riding, health monitoring, disease diagnosis and treatment
- Processing stock for intake and sale
- Water quality and management
- Pen cleaning, manure management and feedlot maintenance
- Computer record keeping
- Quality control and safety
- Staff management
- Feedlot Quality Assurance programs

We are seeking someone with at least 3 yrs experience in Feedlotting who have their own horses and tack. A previous Management or Supervisory role in this industry would be an advantage. The successful applicant will be a practical, self-motivated person who is not only dedicated but has the ability to work as a team and takes pride in both their work and themselves. This is an exciting and rewarding position with a progressive company.

More information and a competitive salary package will be discussed on application
