

Operations Supervisor – Central Queensland Livestock Exchange

Permanent

As part of the ITS Global Group of companies, Livestock Link is Australia's largest and most reliable specialist saleyard service provider.

An exciting opportunity has arisen for an Operations Supervisor at our Central Queensland Livestock Exchange (CQLX). The saleyard is situated 8kms west of Rockhampton (Gracemere) on the Capricorn Highway. CQLX ranks as one of the major selling centres in Queensland and is regarded as one of the best stud selling facilities in the country.

Reporting to the Site Manager, this is a key leadership role in which you will assist in the operational, maintenance and livestock targets of the site.

You will be responsible for the following:

- Assist with the supervision of the property and facilities
- Assist with the management of expenditure within an agreed budget
- Assist with the supervision of the Maintenance of yards, buildings and equipment
- Assist with the organisation of Livestock Sales in conjunction with Livestock Agents;
- Supervision of the Safety of all people on the site
- Welfare of all animals on site
- Supervision and coordination of employees
- Assist with the responsibility and ongoing development of a management system for Occupation Health and Safety, Animal Welfare, Environmental compliance and Quality assurance systems
- Liaising with Livestock Agents, Buyers, Sellers and Livestock Carriers to ensure efficient operations for everyone.
- Assist Site Manager in ensuring the site is in compliance with all relevant legislation and industry codes of practice
- Assist with the promotion of the site, including its relationship with the local community
- Assist the Site Manager with reporting to external parties

You will be an experienced and organised leader, with the ability to prioritise tasks and deadlines, and organise a team's workload. You will be a confident and capable communicator with strong numeracy and literacy skills. You have the ability to build and maintain relationships with internal customers and stakeholders as well as external organisations. Experience with livestock handling, livestock husbandry, and knowledge of the daily operations and procedures within a saleyard environment would also be an advantage.
