

Render Supervisor

We are currently seeking a Rendering Supervisor for our Automatic Rendering Plant. This is a key position reporting to the Production Manager and part of a tight team that has responsibility for supporting and maintaining a new world class processing facility equipped with the latest automation technology.

The rendering team performs job rotations with shift work involved. The successful applicant will be required to:

- Manage the day-to-day operations of the rendering plant
- Monitor work standards to ensure that yields are achieved
- Ensure that all employees perform to the required standards
- Insist that procedures are followed at all times
- Minimise product loss and production down time
- Coach and train your people
- Ensure that all products are produced to the highest standard
- Ensure that all product is correctly labelled and properly recorded

The nature of this role demands a self motivated, decisive person with a "can-do" attitude and the ability to work within a team environment. This position will suit an individual who has:

- Excellent interpersonal skills.
- Excellent problem solving skills.
- Excellent time management Skills
- Clear understanding of Maintenance Best Practices
- Understanding of continuous improvement processes
- Ability to identify "Better ways of working"
