

Killara Feedlot

Killara feedlot is a modern 20,000 head feedlot located near Quirindi, on the Liverpool Plains, NSW. An opportunity exists within our team for a Livestock Manager. Reporting to the Feedlot Operations Manager, this position is responsible for all livestock operations at the feedlot, ensuring animal health and welfare, compliance with quality specifications and animal performance are maximised. The role involves managing a livestock team of up to 15 people; developing and maintaining a culture of safety, teamwork and performance.

The successful application will have;

- Previous experience in managing and leading a team
- Feedlot and livestock handling skills
- Strong commitment to animal health and welfare and safe livestock practices
- Excellent written and verbal communication skills
- Ability to determine competing priorities in a fast paced environment
- Skills in organisation, problem solving and planning
- Computer skills required, and preferably knowledge of Feedlot 3000 & StockAid

Applications close 26 February 2016.
