

Stockfeed Mill Manager

Join an Aussie farmer owned dairy Co-Op in serious growth mode, and lead the management of a key stockfeed mill production site, proudly delivering quality animal feed and reliable service to its farming customers

- 100% farmer owned agricultural Co-Operative
- Stockfeed manufacturing | In house training provided
- South Burnett region, SE Qld

DESCRIPTION

A diverse agricultural co-operative, 100% Australian farmer owned, our client has been proudly supplying quality products since 1895. They are committed to building strength and stability, which includes enhancing the economic vitality and diversity of the rural and regional communities in which they operate. By securing a sustainable supply chain, they develop win - win partnerships in the markets they service across their divisions of: dairy based foods, rural/ agricultural and milk supplies. The business is experiencing strong growth with increased demand due to high profile branding across both domestic and international markets.

ROLE

Within the Rural/ Agricultural division, as suppliers of quality animal feed and farming inputs, there is now the requirement for a **Site Manager** to manage the **stockfeed production mill** in the South Burnett region of SE Qld. Backed up with expert in house nutritional advice and support, the staff are proud of the quality of the feed meal manufactured, together with the reliable delivery service they offer their highly valued customers.

RESPONSIBILITIES

Reporting to the Divisional General Manager you will be responsible for the profitability of the overall manufacturing business of bulk and bagged stockfeed. This involves managing the mill's efficiency, product quality & development. Sales and Marketing activities form a large component of the role involving maintaining and improving key business partnerships with existing clientele and seeking out new business opportunities. You will enjoy being responsible and accountable for delivering on:

- Financial results
- Leadership and People Management
- Business Operations
- Service Delivery
- Workplace Health and Safety

REQUIREMENTS

To be successful in this role you will ideally have:

- Industry experience in managing/ working in a stockfeed mill
- Knowledge of animal nutrition | lotfeeding experience
- Strong leadership and people management
- High focus on WHS and attention to detail
- High level relationship skills
- Proven ability to manage, canvass and provide exceptional service to clients
- Forklift and driver's license

You could be currently managing a farm, with home lotfeeding experience and with some training, ready to step up. You may be looking for a challenge in a growing industry, to join a high profile brand employer where the culture is focused on people, working together across the organisation. Delivering results here could lead to career opportunities in other mills or areas of the business.

LOCATION AND SALARY

The mill site is at Windera, SE QLD, so an ideal home base could be the beautiful nearby towns of Murgon or Wondai which are just over 2 hours from city or sea. A competitive remuneration package including tool of trade vehicle is on offer.

INTERESTED

You are welcome to contact **Al Kellaway** of **Agricultural Appointments** on 02 9032 5107 should you require further information.

Apply online – www.agri.com.au/job-listing or email resume@agri.com.au

Please ensure that applications are accompanied by a cover letter addressing the requirements.

AGRICULTURAL APPOINTMENTS

We are a specialist agriculture, food and wine recruitment company. We know people. It's a claim others make but in our case, we've got a track record that began in 1979. From our network in industry to our network on social media to our knowledge of how to assess, select and manage, we know people. All our people are trained agribusiness and agrifood professionals.
