

## Feedlot Manager

- **Unique management role**
- **Riverina area**

We are seeking an experienced Feedlot Manager for our new feedlot venture located 28 km north of Deniliquin. This is an excellent opportunity to establish and develop an industry best standard feedlot operation from its inception.

The successful candidate will have extensive feedlot management and administration experience, with proven skills in leadership and supply chain management within the feedlot sector. You will be energetic, with a professional, common sense approach and will appreciate being part of a committed agricultural group.

You will initially be responsible for the development of the venture to achieve compliance with regulatory requirements to enable commissioning of the facility. Once operational, you will have responsibility for the overall management and success of the business unit including: sourcing stock, inputs and customers; directing and overseeing day to day operations; employing staff and contractors; fulfilling regulatory reporting requirements; and ensuring all corporate requirements regarding performance, animal welfare, WHS and operating standards are satisfied.

Preferred attributes:

- 5 years experience in a relevant role within a Feedlot
- Strong cattle management experience
- Excellent communication, reporting and organisational skills
- A keen eye for detail.

Situated in a great, family friendly location, the package includes on-property family accommodation. For further information please contact Robyn Smith on 03-5884 6604 or apply via [rsmith@austfood.com.au](mailto:rsmith@austfood.com.au).
