The role is diverse and challenging, you will be involved in all daily operations including; livestock procurement, receival and quality control; logistics and preparation for vessel loading; reconciliation and budgeting; and ensuring adherence with all relevant state and federal regulation.

The successful applicant will have extensive knowledge of the livestock industry to help the company group continue to grow. This is an exciting opportunity for career progression and continued growth within the company.

Duties and responsibilities;

- Carry out and manage aspects of the day-to-day business operations of the company
- Support the Company's Sheep buying network, and representing the Company at livestock sales and field days.
- Support the Export Manager of the company in ensuring the smooth uninterrupted operation of the physical company business and export supply chain
- Assist with planning and implementation of export buying programs including management of pre export preparation, veterinary programs, land transport, vessel loading and voyage consignments
- Work with Feedlot Managers and Veterinarians to assist with feedlot activities and processes
- Carry out livestock procurement to ensure export protocol compliance with ASEL and importing country requirements in an efficient and timely manner
- Assist with the companies downstream operations and clientele as may be required

Skills and Qualifications and Education Requirements;

- Tertiary degree (or equivalent experience) in relevant Agriculture or related field
- Min 2 years' experience in similar livestock related business or industry
- Good computer literacy and understanding of livestock production and identification technologies

Additional Requirements;

- Ability to manage a small dedicated livestock team
- A good eye for detail and organisational skills
- Livestock Handling skills and livestock assessment ability
- A broad understanding of the entire livestock production and export supply chain
- Have "paddock to plate" attitude of responsibility with respect to the company's business and animal welfare and well being
- A good understanding of regulation and compliance matters related to livestock production industries and the Livestock Export industry, including but not limited to, ASEL, ESCAS, OHS, QA, and Environmental.
- An extremely tolerant and flexible attitude towards work hours and environments.
- C Class driver's license

Preferred Skills;

- Some formal livestock handling accreditation
- Reasonable skills in planning, management.
- Some understanding of finance and administration process

Full time Position based in Perth, WA. Attractive salary package and car provided
