

Kylagh Cattle Company has an opportunity for a progressive and motivated cattle manager at their Beef cattle feedlot in Tammin, Western Australia.

The position reports directly to the managing director and is responsible for providing supervision and guidance to the cattle team. The role responsibilities include, but are not limited to, pen walking, diagnosis of animal health symptoms, administration of treatments, fulfilling arrival and exit requirements, drafting and cattle movements. There is also a high level of planning, administration and record maintenance required, with support from the administration manager. The cattle manager will be responsible for ensuring WHS & QA compliance is adhered to. Training in feedlot operations will be provided.

The successful applicant will be reliable, positive, highly driven and able to demonstrate the following;

- Knowledge of working with livestock in a feedlot environment, including low stress stock handling practices and maintaining high animal welfare standards
- Experience in supervising a small team and providing strong leadership and motivation
- Excellent planning and time management skills and the ability to prioritise tasks to meet deadlines
- High attention to detail and ability to fulfil weekly reporting requirements
- Computer literacy skills – knowledge of Microsoft Office programs will be advantageous

This permanent position will be full time with rostered weekends and some public holiday and overtime required. An attractive remuneration package, with subsidised accommodation is available.

Written applications including cover letter and resume should be forwarded to:

Ivan Rogers

Managing Director
