

## Senior Analyst - M&A and Strategy

- **Corporate Agribusiness**
- **Brisbane based**

Our client is a leading Australian agribusiness with significant farming assets and supply chain interests both locally and internationally.

They are seeking an experienced Senior Analyst to partner with the CEO and leadership team to drive the strategic direction and the acquisition pipeline across the organisation. With a strong working knowledge and understanding of the agribusiness value chain, the Senior Analyst will take an innovative approach to identifying M&A opportunities that will facilitate the future growth and profitability of the business. They will provide detailed modelling and analysis on new opportunities, provide business case presentations and take them to the board. They will work with the executive team on the execution of the due diligence process and be a member of the integration team for new assets.

The role will also champion the development of 5yr and 25yr strategy documents and will present them to the board periodically throughout the year as well as take ownership of shareholder and stakeholder presentations. They will conduct ongoing analysis of the existing strategy and look to identify areas that could optimise business performance including property improvement plans and capex projects. The role will own the whole business forecasting models and champion the business intelligence systems to drive decision making in addition to developing models to support the business operations and identify opportunities for process improvement.

Opportunity exists for a proven performer with a strong background in M&A and agribusiness, who possesses a strong presence and the ability to work with the senior leadership team and build relationships with external stakeholders. A very driven and proactive attitude and the ability to work collaboratively across the business as well as managing their output autonomously is critical.
