

### **FARM MANAGER – DRYLAND CROPPING**

- **Large-scale, professional operation**
  - **North west NSW**

This is a great opportunity with a diverse, large scale cropping enterprise in North West NSW. With first class infrastructure, this privately owned operation is looking for a Farm Manager for their dryland summer & winter cropping country of around 14,000 hectares.

As Farm Manager you will be responsible for the day to day dryland cropping operations, managing a small permanent team and contractors. You will also be involved in seasonal planning and budgeting, although administration is kept to a minimum so you can concentrate on producing a great crop.

A strong background in grain cropping is crucial, as well as great organisational and time management skills, good at planning ahead and coordinating activities to ensure timelines and high standards are met. Essentially you will be someone who leads from the front and takes pride in great results.

A renovated family home is available, only 10 minutes from town on an all-weather road. This is a great role with a first-class operation where you will be well rewarded for your expertise and results.

To enquire please phone Mick Hay or Sharon Moloney on 07 3878 3411 or apply to [www.rimfireresources.com.au](http://www.rimfireresources.com.au).
