

FEEDLOT MANAGER – KYLAGH FEEDLOT

Kylagh Feedlot is a 5,000 head facility located 165kms East of Perth in Western Australia.

Kylagh Feedlot is recognised as one of Western Australia's leading feedlots and is continually investing in the facility to improve efficiency of operation. Kylagh has excellent facilities for livestock handling, cattle feeding, feed preparation and day to day operations.

Currently an opportunity exists for an **enthusiastic** person to lead our progressive team as the Feedlot Manager.

The role primarily oversees daily feedlot operations working with the **administration team, livestock team, feeding and milling team and maintenance team**. The position suits a person who thinks independently, takes ownership and is confident to be accountable for decisions made in the daily operation of the feedlot. This role has significant autonomy and should be viewed as a senior management position in the WA Beef Industry

Applicants would preferably possess the following attributes;

- The ability and desire to lead using proven leadership techniques
- The capacity to motivate a medium size team to perform consistently focusing on outcomes
- The ability and motivation to think independently
- The desire to bring the latest innovation in feedlot management
- The desire to introduce technology to the feedlot wherever possible and practical.
- The desire to build a career in the Beef industry – whether that be locally, nationally or internationally.

Particular skills that would be viewed favourably include;

- Animal awareness and a strong understanding and commitment to animal welfare
- Ability to demonstrate contemporary animal husbandry techniques
- An understanding of cattle nutritional requirements
- An understanding of the daily operations of a medium sized feedlot
- An ability to review and develop standard operating procedures
- Have advanced computer skills
- Ability to work in a Quality Assured focused workplace
- An understanding of required OHS within the feedlot
- An understanding of Environmental regulations within the feedlot
- Tertiary qualification in agricultural science or related field would be highly regarded

The successful applicant would ideally have prior experience in cattle feedlot management. Whilst feedlot experience would be favourably viewed, experience in beef and or dairy production would also be highly regarded.

A very attractive salary package commensurate with the skills of the applicant and the position held is offered to the successful applicant.

Applications (including cover letter and resume) should be forwarded to;

Ivan Rogers
