

Planning Supervisor

The Northern Co operative Meat Company Ltd is a leading export food processor with production facilities at Casino and Booyong near Lismore in the Northern Rivers area of the NSW far north coast. We are currently seeking the following:

Planning Supervisor

This position reports to the Group Engineering Manager within our Maintenance & Engineering Department based at our Casino Plant. You will need:

- Experience in managing multiple and diverse contractors.
- Computer literacy, including the application of technology and software as management tools.
- Proven capability in written reporting and analysis relating to improvement projects.
- Understanding of maintenance quality, environmental, food safety and legislative standards.
- Knowledge and understanding of health and safety in relation to risk management.
- Strong people skills with staff, suppliers and contractors, inclusive of engaging and bringing people along.

The Planning Supervisor position will be responsible for development of maintenance management plan, planning of maintenance, infrastructure recording, milestones and R&M budget.

The Planning Supervisor is supported by a Maintenance Planner and a Draftsperson to assist and achieve the objectives of this position.
