

## **Northern Victoria Livestock Exchange (NVLX) Operations Manager**

AAM Investment Group is an Australia Owned and operated diversified Investment Management Group who are seeking an experienced Operations Manager for the Northern Victoria Livestock Exchange (NVLX) located near Wodonga, Victoria. NVLX is a part of the Regional Livestock Exchange (RLX) Portfolio of modern and innovative livestock selling facilities currently handling over 840,000 cattle and 2,400,000 sheep annually.

Reporting to the Regional Manager, the primary responsibility for this role is coordinating the operational management of the livestock facility.

Key criteria includes experience/knowledge with working and processing cattle, extensive animal husbandry knowledge and skills, efficient and productive personal management, operational planning, financial management and compliance with OHS. There is substantial liaison with livestock buyers, producers, stock agents, transporters and other stakeholders as well as with other government agencies.

### **Essential Criteria**

1. Significant experience working with livestock;
2. Leadership and management experience with employees;
3. Well-developed negotiation, communication and interpersonal skills, including the ability to work collaboratively with a diverse range of stakeholders;
4. Background in managing budgets and business operations;
5. Able to use a PC and have a working knowledge of Microsoft Office software; and
6. Strong analytical skills in being able to analyse performance data.
