

# Station Manager

- **Cattle, sheep & cropping**
- **South West Qld**

A great opportunity is now available with a well established, private enterprise based in South West Queensland. The aggregation of 15,000ha operates as one, comprising breeder cattle, sheep and cropping (summer and winter), with excellent infrastructure and capital improvements.

The position has become available due to the promotion of the incumbent, so they now seek a Station Manager with experience in a large mixed farming enterprise. You will manage a small, high performing team to ensure the best returns of each operation, alongside ongoing improvements.

The operation is part of a larger family structure where there is strong support, while also allowing you to get on with your job, and we are keen to hear from you if you possess:

- Mixed farming experience as a manager, or an overseer ready for the next step
- Demonstrated commitment to a safe, healthy environment for people and livestock
- Experience with modern technology, keen to take advantage of emerging agricultural and business technologies
- Strong people management and leadership, proven in developing a motivated, high performing, loyal team
- High level organisational skills, able to juggle the various demands of a mixed farming enterprise, along with attention to detail, forward planning and excellent reporting skills

This is a position with long term career opportunities and the added benefit of a living within a local community, while also being within an hour of Goondiwindi. A large on-farm homestead is available, along with other benefits including a local primary school. To enquire please phone Sharon Moloney on 07 3878 3411 or apply via [www.rimfireresources.com.au](http://www.rimfireresources.com.au)
