

**Crop Assessors Required
All Australian States**

The Crawford Agriculture team is the largest rural claims management consultancy in Australia. Our agricultural and insurance specialists, agronomists and crop field assessors are strategically located to attend and advise on a broad range of agricultural losses and claims across Australia. Our people understand the land, agribusiness and the people involved. We are passionate about our involvement in agricultural claims.

The role would suit:

- Agronomists and Crop Consultants
- Retired/retiring grain growers

The role involves:

- Liaising with growers regarding their damaged crops,
- Spending time in the field assessing damage,
- Assessing potential yields and losses utilising the latest technology,
- Seasonal work dependent on the weather patterns,
- We mostly assess hail damage, however the crop assessors may also be asked to assess other agricultural claims.

We provide full in-field training and on-going mentoring.
