

Management Opportunities – Myola Feedlot

- Based – Northwest NSW
- Provides Job Stability
- Challenging Opportunities

Acquired by the Bindaree Beef Group (BBG) in 2015, Myola is a modern 20,000 head capacity feedlot situated in northwest NSW. Its location in the heart of the “Golden Triangle” provides excellent access to a secure supply of grain and cattle. Myola is managed by a highly qualified, enthusiastic and dedicated staff, many of which have several years of specialist feedlot experience.

Myola now plays an integral role in the BBG supply chain, ensuring the delivery of a consistent supply of cattle to the Bindaree grain fed brands whilst also continuing its operation as a custom feedlot. Myola’s location, infrastructure and management provides excellent opportunities for cattle producers to retain ownership and add value to their cattle operations.

With continued growth across the Group it is crucial that we continue to build the skills and expertise of our Management Team at the Myola Feedlot. Opportunities currently exist for proactive Managers with proven leadership skills to implement continuous improvement initiatives in the areas of workplace health and safety, environmental conditions, people management and livestock performance within both Operations/Milling and Livestock teams.

What experience will I have?

- Management / supervision of daily feedlot operations including daily stock activities, feeding and milling departments, contractors and maintenance teams;
- Ability to utilise data tracking and analysis tools to track and manage livestock, plant and equipment ;
- Experience / knowledge with working and processing cattle within a feedlot environment;
- Extensive animal husbandry knowledge and skills;
- Experience in directing and overseeing a range of operational activities within both the Livestock and Operations functions of a feedlot;
- Minimum 2 years’ proven Management / Supervisory experience in a similar role;
- Ability to work with others and enjoy working in a small proactive team;
- Demonstrated commitment to safety and quality outcomes;
- Professional and proactive approach;
- Excellent communication skills;
- Efficient and productive personnel management and assessment of staff;

Additionally, you will have:

- The ability to coach and mentor employees to build a high performing;
- Desire to take ownership and accountability in decision making;
- A proven commitment to adherence of all regulatory requirements including WHS and relevant animal welfare standards;
- Strong problem solving skills;
- Computer skills and knowledge - FY3000, Digistar and Stockaid will be essential
- Certificate or degree in Agri-business will be highly regarded but not essential.

Applicants must be prepared to undertake a full employment functional medical including a drug and alcohol assessment.

This is an opportunity to work with some of the best in the industry! An attractive remuneration, based on skills and experience, will be negotiated with the successful applicant.
