

Cattle/Farm Manager – Florina Station

Florina Station is situated beside the Daly River approx. 50km west of Katherine NT, and combines cattle production as well as an expanding Agribusiness.

Development includes established breeder and weaner paddocks, coolers, roads, water supply, and hay production. Total area is approx. 58,000ha, with approx. 200ha cleared and scope for further clearing and hay production.

Agribusiness – 1300 Brahman breeders and calves, 60 bulls and EXTENSIVE plant and equipment.

Florina has excellent accommodation and facilities, suitable for a management couple.

We are looking for a skilled and motivated Farm Manager/couple to join and work with our farm management team now, and work with our cultivation team in the future.

Responsibilities

- Operation and development of the Farm
- Implementation of livestock strategies
- Management of contractors and station hand
- Maintenance of farm equipment and infrastructure

Selection criteria

- Minimum 5 years' practical experience in livestock husbandry, pasture management and herd monitoring
- Certificates in Beef Cattle Production
- Good understanding and experience in OH&S management system
- Good planning and problem-solving ability
- Good communication and organisation skills
- Good health and enjoy outdoor working environment
- A responsible attitude and ability to work independently
- Ability to plan effectively and manage against a budget
- Attention to detail, and able to maintain accurate property records
- Experience in timely reporting and monthly meetings
- Mechanical aptitude and computer literacy (current licences for all vehicle and heavy equipment)

The successful candidate will be keen to learn, have an open mind, willing to contribute new ideas and work collaboratively as part of a young, enthusiastic team. Driven and passionate about Farm Management, you may now be working as an Assistant Manager and ready to take the next step in contributing to, and implementing, plans as a team leader and excel in Agribusiness.
