

Operations Manager

- **Canterbury Based**
- **Primary Sector / Processing Industry**

Wallace Group LP is a recognised leader in the primary sector specialising in the recovery of agricultural bi-products and converting them into local and internationally traded finished products. The company has significant investment in three core areas of business; Rendering, Tanning and Composting with the business operations having recently expanded through the completion of a significant merger process with another industry leader.

As a result of this merger process, the company is seeking to appoint an Operations Manager for their Canterbury based Rendering Facility. Based in Timaru, this successful appointee will provide leadership and support for both the Washdyke and the Hororata rendering facilities with the respective Plant Managers directly reporting to this role.

To be successful in this role you will need to be proactive, well organised and ambitious and be able to demonstrate sound operational leadership experience and success within a processing environment, ideally from within the agricultural sector.

Reporting to the General Manager-Operations, the key accountabilities will include:

- KPI setting and attainment
- Continuous Improvement identification and implementation
- Health and Safety leadership
- Optimising financial performance
- Logistics co-ordination
- Plant and processing optimisation and compliance
- Customer and staff relationship management
- Setting and achievement of sales budgets for local trade customers

You will need to be able to demonstrate your ability to develop good working relationships not only internally but also with Suppliers, Regulatory Authorities, Industry Bodies and Customers.

If you believe you have the skills and experience to succeed in this critical management function, and have the desire to make a positive difference to Wallace Group LP please send your Resume & Cover letter to Dave Garmonsway, dave@fegan.co.nz. Or call us on 64 7 823 0105
