

NOT JUST JOBS. WE DO CAREERS.

STATION MANAGER “MILLUNGERA”

A once in a lifetime opportunity now exists for an experienced cattle station manager to join a 100% Australian, and family owned industry leader.

Proudly rich in Queensland’s pastoral history, “Millungera”, spanning 342000 hectares is our second major breeding property and located approximately 90 kilometres by sealed road North West of Julia Creek in North Queensland. Millungera carries up to 40,000 head of breeding cattle and is well developed with extensive infrastructure and facilities.

Australian Cattle & Beef Holdings (ACBH) is an integral part of the Australian Country Choice (ACC) group vertically integrated supply chain, producing high quality young cattle destined for the domestic retail and export markets. This vertically integrated supply chain comprises large scale cattle breeding, backgrounding, feedlots and a modern meat processing and packaging facility and is strategically located across Queensland, stretching from the north West and West to the Central and south East. In our quest to remain at the forefront of industry, ACBH have embraced leading edge bull breeding technologies and are recognised property and livestock innovators, recently receiving the Global “Hitachi Transformation Award” in Las Vegas.

Reporting to the Chief Executive Officer, the Station Manager is responsible for leading a large team in safely undertaking their roles to ensure highest standards of animal management, health and welfare plus achieve operational performance expectations and station productivity.

Along with demonstrated experience managing a large and high performing cattle station, the successful manager will have:

- Breeding program expertise
- Solid understanding of compliance and regulations relating to quality, animal health, welfare and environment
- Commitment to employee health, safety & wellbeing and thorough knowledge of safe work practices
- Ability to lead, manage and develop an engaged team
- Communication and relationship building ability
- Effective negotiation & influencing skills
- Financial acumen and reporting
- Rangeland management
- Asset and infrastructure repair and maintenance
- Property planning & development

This is an exceptional role for a dedicated, self-driven manager seeking a new challenge in their established station management career. You will thrive having accountability and operating autonomously within our supply chain, along with the benefit of practical leadership support and access to our group head office shared services and systems.

Apply now and grow your career with us, from paddock to plate.
