

Production Manager - Bourke

Play a major role in the driving the performance of a new state-of-the-art small stock Abattoir

- **Production Manager - overseeing processing of goat meat products to export market specifications**
- **Key role delivering production targets, efficiency and productivity**
- **Attractive remuneration**

About Us

We are Darling River Meats and are in the process of building a state of the art Small Stock Abattoir in Bourke NSW. Adopting the latest meat processing technology from around the world, we will process up to 6000 small stock a day.

Our facility is located in Bourke NSW, an iconic Australia town located on the banks of the Darling River. Nicknamed the 'gateway to the outback', Bourke is well known for its history of trade and commerce. With modern facilities and services, this is a unique living and family experience.

About the Role

Reporting to the Plant Manager, you will be responsible for the management of all aspects of plant production and finished product target requirements. This will include overseeing processing, production and maintenance; monitoring output and ensuring operations are compliant to strict export standards, along with training and mentoring of processing staff.

Some of your responsibilities:

You will be an integral member of the senior management team, with key focus areas including:

- Delivery of production requirements, with overall responsibility for ensuring that staffing and competency levels are achieved/exceeded in all aspects of the manufacturing process
- Work closely with plant and quality assurance personnel to ensure and monitor product quality consistency against market requirements
- Monitor operation expenses and actively pursue ways to reduce costs while maintaining product quality
- Encourage and promote operations in a continuous improvement environment
- Remove production constraints; allocate human and equipment resources and direct production employees to attain established goals
- Work in collaboration with the HR Manager/representative to manage relationships with employees
- Overseeing primary processing and production equipment and ancillary services maintenance

About You

It is essential that you have extensive experience in small stock abattoirs, most recently as a Production or Operations Manager, along with Ausmeat accreditation. Frontline Management qualifications are desirable. You will also have well developed team management and communications skills, with a deliver focus, appreciation and understanding of process efficiencies and also attention to detail and quality outcomes.

This is a unique opportunity to be a leader in Australia's meat industry. Your hard work and commitment to the operation will be well rewarded with a market competitive remuneration package that will be negotiated with the successful candidate, including assistance with relocation.

Sound like you? What are you waiting for, Apply Now!
