

Property Manager

Beef - grazing and cropping

We are seeking an experienced, motivated and dynamic individual (or couple) to manage a beef finishing and backgrounding aggregation across two properties totalling 42,000 acres.

The role is located 20km from Augathella on a mix of downs and scrub country with 2,500 acres of cultivation used for forage crops. This is an exciting opportunity for a progressive property manager, offering autonomy to manage daily operations and ongoing development to optimise farm efficiency and productivity.

Responsibilities will include;

- Pasture management
- Low stress stock handling practices, mustering on motorbikes
- General machinery and plant maintenance, checking fences and waters
- Management of farming operation
- Property planning and development
- Organisational skills to prioritise and plan work schedules

We are seeking a highly skilled, resourceful and responsible person to fill this role and an attractive salary package will be negotiated with the successful candidate. Farming and machinery experience will be highly regarded. Work may be available for a partner.

To apply for this position please email a resume and cover letter to kentonpeart@bigpond.com
