

LIVESTOCK MANAGER

Full Time

Coomalie Holding Depot is a pre-export quarantine facility located 25km north of Adelaide River on the Stuart Highway and within an hour from Palmerston and Darwin. Our family company is integrated with Victoria River Veterinary Services and Waterloo Station NT.

We require an Assistant Livestock Manager to our Depot Manager to work closely with our team, the live exporter and visiting overseas clients.

You will be required to complete day to day management of CHD including but not limited to:

- Compliance of the Exporter Supply Chain Assurance System (ESCAS) related requirements and documentation
- Knowledge of the Australian Standards for the Export of Livestock (ASEL) as well as develop importing country requirements
- Effective communication within the industry and sound written communication skills to prepare correspondence and reports
- Sound computer skills will be required for Microsoft office, Gallagher TSi system and the National Livestock Identification System (NLIS)
- Manage CHD in the absence of the Depot Manager
- Manage and complete loading and unloading of trucks as well as weighing, drafting, tagging, dipping and feeding cattle
- Importantly carry out all activities in accordance with industry best practice and animal welfare
