

Property Manager

We are seeking an experienced, energetic and self-motivated couple to work in a team environment to fill the position of On-Farm Managers for a 10,000-acre cattle property in the Gympie Region, located 2hrs from Brisbane CBD and 40mins from Noosa. The responsibilities of this role include, but is not limited to:

- The day to day management of the property;
- Managing staff and contractors on the property;
- Creating and maintaining an effective OH&S environment on the property;
- Maintaining and caring for the property's plant and equipment;
- Creating and maintaining an effective animal welfare working environment on the property;
- The effective implementation of a farm business plan, agreed to with the owners, to create a profitable and sustainable business.

This role will report directly to the owner and will require liaison with consultants and the financial controller.

An 18 month development program will start in August 2018 consisting of water, stock and property infrastructure improvements along with pasture improvement, weed control and herd development. Input into this development plan will be the first key responsibility for the successful applicants. The target carrying capacity of the property after development is 1,500 breeders.

Applicants should be confident, knowledgeable and experienced with pasture management, mustering and processing cattle. You must have an aptitude for adopting new processes and adhere to a strong OH&S and animal welfare working environment along with patience and the desire to share knowledge and teach skills in a family environment. A current driver's license, Australian passport and blue card is required for the role. The ideal starting date is May 2018

A competitive remuneration package including accommodation will be negotiated to attract the best candidates along with a vision of potential career progression should the operation expand.
