

Maintenance Operator

Background

Kerwee Feedlot is a 20,200 head modern beef feedlot located at Jondaryan on the Darling Downs in south-east Queensland. Kerwee is one of the Australia's leading feedlots which is constantly embracing new technology to provide a first class feeding facility. The feedlot is a part of The Kerwee Group of businesses, which together with Stockyard Beef, controls a vertically integrated family owned and operated branded beef supply chain provide high quality beef on a global level.

An opportunity currently exists for an enthusiastic and highly motivated person to join our progressive team as Full Time Maintenance Operator at Kerwee feedlot.

The Role

The role involves the operation and maintenance of relevant feedlot machinery and our industry leading steam flaking mills and associated plant. The company has undergone significant upgrades to expand our capacity and the successful candidate will work in a team on a 10/4 roster. This position would be suited to a mechanically minded person who can work alone or in a group to consistently achieve company benchmarks.

The successful candidate for this role should show the following attributes:

- Strong time management abilities
- Proven experience working as part of a diverse team.
- Ability to communicate well with all levels of personnel and management.
- Strong focus on following and enforcing WH&S and environmental requirements.
- Knowledge of boiler operation, flaking mills and heavy machinery maintenance would be an advantage.
- Mechanical qualifications would also be an advantage.

Attractive wages would be offered based on the experience and qualification levels.

Applications (including cover letter and resume) should be emailed to –

Kerwee Lot Feeders General Manager by 30/3/18
