

LIVESTOCK & SUPPLY CHAIN COORDINATOR

NSW MEAT PROCESSING PLANT

COASTAL / LIFE-STYLE LOCATION

This exciting new position will assist our NSW Livestock Manager in planning, coordinating and monitoring the day-to-day activities for livestock cattle procurement. You will demonstrate enthusiasm and initiative and the ability to develop positive relationships with customers. We will provide training and support that will allow you to develop and enhance a solid career within our livestock team.

The Role

Assist in developing effective relationships with all parties concerned with livestock cattle transactions;
Deputise, as the administrative point of contact;
Process sales transaction data to comply with livestock systems and procedures, internal controls and all relevant regulatory requirements.
Support producers in utilising existing new feedback as it becomes available through objective measurement technology and other sources.
Establish and maintain a professional, business relationship with beef graziers, livestock agents and feedlot operators through programs of on-going communication.
Previous knowledge of existing feedback systems.
Knowledge and experience in feedback systems within the supply chain an advantage.

To be successful for this position you must demonstrate

- Relevant degree in Agriculture or equivalent industry experience supported by rural livestock training.
- Strong planning, organisational, ability to prioritise, and decision-making skills
- Efficient in computer skills, including MS Word & Excel;
- Good interpersonal skills are essential with the ability to develop and maintain strong relationships with stakeholders.

To express your interest in this fantastic opportunity, please email your application to Leanne Yarnold, HR Manager – lyarnold@winghambeef.com.au
