

Research Assistant – Animal Science

- Conduct and implement on-farm research for innovative new livestock technology
- Ensure testing programs are effectively run and information recorded
- Outstanding career potential and dynamic commercial research opportunities

The Company

Our client is a world-leading agricultural technology company that is launching a new innovative product targeted into the beef and dairy industries worldwide. As the product has advanced through to the commercialization stage the on-farm testing programs are increasing, and there is a need for a research assistant work to with farm staff to implement, monitor and manage on-farm research at the company's trial property in Queensland.

The Role

This role requires a qualified animal scientist to manage trial work on a small herd of beef cattle which are being used in the ongoing development of digital fencing technology. The focus of the role is to implement, monitor and executive demonstration and research trials on the cattle, and to work with the science team to identify knowledge gaps and to review research protocols.

Requirements to apply for this role

You will need to have the following attributes to apply for this role:

- A degree or equivalent in animal science or related field
- Some experience in designing and conducting research trials is preferred
- Ability in statistical analyses of data and in writing reports
- Experience in cattle management practices
- Experience of the northern beef industry will be valuable
- Proven ability to work cooperatively in a team environment

Location

Location is at the company research farm located 20km south of Ipswich, Queensland. Some travel is required to regional and overseas locations as required.

Remuneration

A good salary is on offer to attract the right person for this role. There is great opportunity for career advancement with this cutting-edge agricultural technology company which is expanding rapidly both in Australia and overseas.

To Apply

Please apply online before the closing date of July 27th, 2018.

Please contact Dr. Ray Johnson, Senior Agribusiness Consultant & Managing Director, Agricultural Appointments via mobile 0419 012 841 or email ray@agri.com.au for a confidential discussion on the role if required.
