INDEX

Lot 1	Feature Sire offered by Seifert Belmont Reds, Jeanne Seifert and Ian Stark
Lot 2-17	Bulls offered by Wahroonga Belmont Reds, Robert and Jane Sherry
Lot 18-49	Bulls offered by Seifert Belmont Reds, Jeanne Seifert and Ian Stark

Introduction

SEIFERT BELMONT REDS

Impeccable standards of data and personal integrity, plus a long history of the original and the best genetics in Australia, confirm Seifert Belmont Reds reputation for the highest quality trusted breeding.

Founded on Dr George Seifert's original Belmont Red herd incorporating 40 years of uncompromising genetic selection, Seifert Belmont Reds is the largest breeder of Belmont Reds in Australia. Ian and Jeanne represent the new generation of Belmont Reds. Together they form the perfect marriage combining highly developed practical skills with superior theoretical knowledge. Being hands on, both Ian and Jeanne are intimately involved in every aspect of their operation from paddock to database. Their breeding philosophy of using facts and figures plus phenotype to accelerate genetic progress means they produce high performing, fit for purpose bulls, that produce consistent and profitable progeny. Ian and Jeanne are proud to present 31 quality bulls for sale and are delighted to be hosting the sale on their property 'Wonga' North of Jandowae (see Map). All bar four are polled and four are homozygous (PP) polled. Our bulls are selected for inherently good temperament first and foremost, plus EBVs with a strong focus on fertility and carcass traits, conformation and type. They were bred and born on our marginal, spear grass, iron bark, tick infested lantana country, north of Crows Nest. They are unpampered and never treated for buffalo fly or ticks (except for being dipped to clear to 'Wonga') which guarantees very high natural resistance.

Seifert Belmont Reds are JBAS 7. Our bulls are blooded and vaccinated with 5 in 1, vibrovax and BEF in late 2017 as well as DNA sire verified and DNA tested for Polled/Horned genes. They were semen tested and passed, including morphology and motility, in February 2018. Having passed as yearlings identifies desirable early puberty and means they will excel in the coming breeding season as 2-year olds. Note they were live carcass scanned late last year at only approximately 13 ½ mths old (400D). Please see the supplementary sheet. All are all pedigreed, registered and breedplan recorded.

Ian and Jeanne are offering FREE delivery for Seifert Belmont Red bulls to Rockhampton, Emerald, Charters Towers, Mareeba, Roma and Casino. Overnight campers are welcome with access to power, toilet and shower.

Visit www.seifertbelmontreds.com and FB 'Seifert Belmonts and Sylvia Vale Stock Horses' or phone Ian 0439 632 113 and Jeanne 0427 632 113

WAHROONGA BELMONT REDS

Wahroonga Belmont Reds formed in 2015 after we purchased a line of cows from the CSIRO dispersal and Corymbia Belmonts.

We run our stud cows alongside our commercial herd, on Ironbark range country, where the Belmont Reds adaptation and fertility shine with outstanding rebreed figures.

Our breeding philosophy is to breed a type of sire that will fit perfectly into future value based markets where producers are rewarded for yield and meat quality. Docile, low input costs and highly fertile.

The sires we purchase must fit the phenotype we are chasing, a high yielding carcass with a wide and deep topline, docility and good fertility traits are vital. This is backed up by EBV selection that is balanced and above breed average. We also want to buy polled bulls so we then sell polled bulls, we see this being an issue in our industry in the not too distant future.

We have competed in local and national carcass competitions for the last ten years, with pleasing results.

The sixteen bulls for sale this year are a testament to our focus, being moderate framed and will produce high yielding carcasses. We believe this is what is required for a value based market looking to the future. They also have good balanced growth and carcass EBVs, most are in the top 20% for the scrotal size EBV. Our sale team are all polled or scurred, have been morphology tested, and carcass scanned in late April with results available at the sale. The bulls have been treated with Vibrio, Pestivirus and Botulism. They range from 18 to 20 months of age. We are pleased to offer our genetics to our existing and new clients. *Contact Robert Sherry 0407 589 453*

HOW TO REGISTER with ELITE LIVESTOCK AUCTIONS

Welcome to the new age of selling livestock in Australia and "Happy Bidding"

- 1  Simply go to www.elitelivestockauctions.com.au using your desktop, laptop, iPad, iPhone or android device
- 2  Click on the "Sign Up" page / link
- 3  Create a bidding profile using the bidder registration page.
(You can either register as a livestock agent, company or private buyer.)
- 4  Agree to the Elite Livestock Auctions Terms & Conditions and the Selling Agents Sale Terms & Conditions as printed in the official Sale Catalogue
- 5  Click "Register"
- 6  You will then be notified by email that an account has been created

- 7  Once an account has been created you are all "Set to Bid"
- 8  Each auction can then be viewed by clicking "Live Auction" logo on the Elite Livestock Auctions website
- 9  Once you receive email notification that your account has been created please go to the sale you wish to bid at and click "Request to Bid"
- 10  The sale agents will then approve your application to bid and on the sale catalogue you will see "✓ Bid Request Approved"
- 11  On Sale day simply login, click "Enter Auction" on the catalogue page and you can start bidding.
(There is no need for software download)
- 12  At the completion of the auction, invoicing will be carried out as per your registration details by the Selling Agents.

SEI0000G2 SEIFERT GENERIC BR

NOTES: 'Seifert Limelight'. This sire is just about perfect in all respects. He is a bit of a star having featured in the Channel 9 news during BEEF Australia 2018, in the Rural weekly, as well as being the poster boy in much of the advertising for this sale. To say that he has a great phenotype matching his genotype does not do him justice. With 16 out of 18 traits above the 50% percentile he is an exceptionally well-balanced bull. He is a beautiful, quiet and respectful sire, with excellent muscling and fertility traits. Notably he has EMA and scrotal size in the top 5%-10% of the breed and sits in the top 15% for the domestic index. 'Limelight' is 32 months old and was first used as a sire in our herd in 2016 at 15mths old. We have retained semen on this very special bull. 'Limelight' is guaranteed to be a major herd improver. Weight and scrotal size (SS) 20.6.18: 920kg and 42cm. Semen tested 25.06.2018: %N morphology 81%, motility 80%. We have retained semen from this sire.

MON990046 MONTELLIER 99-46

NOTES: Our absolute 'personal favourite' bull this year. This magnificent bull is one of only 4 homozygous polled (PP) bulls in our draft. With scope and 'presence' plus the sweetest temperament dare I say it... he is one of the 'best-looking' bulls ever bred! He has great growth in the top 15% for 600D and retail beef yield in the top 15%. His dam was a yearling mated heifer and has a faultless calving record. He is her 6th calf in a row and she is PTIC with her 7th calf. Weight and SS 20.6:18: 754kg and 39cm.

NB SEI170155 is to be sold subject to the right of the vendor (at their expense) to collect 300 straws of semen for in herd use only. The preferred option is for the bull to remain at Wonga for collection in October and no later than the 15th November 2018 (and to be insured at the vendors expense.) Alternatively the bull can go to the new owner and be collected at his new home at a mutually convenient time no later than the 15th November.*

NOTES: This bull is a about as good as it gets! In our opinion he should be one of the sale toppers. A homozygous polled (PP) bull he tops the both domestic and export indexes above the top 1%. With exceptional EBVs matched by great physical presence, he has 16 out of 18 traits above the 50% percentile. His growth, scrotal size, eye muscle area, carcass weight and retail beef yield are all in the top 5%, as well as fertility traits of scrotal size in the top 5% and days to calving in the top 30%. He is the 3rd calf of 3 calves in a row for his dam. He will be a money maker in any herd. We used him in our herd last breeding season at 14 mths old and have retained semen. Weight and SS 20.6:18:688kg and 43cm.

NOTES: Matthews favourite, this bull is an eye-catching high growth polled bull. High growth EBV for 600D is in the top 5%. He is also an excellent carcase prospect with his carcase EBV above the top 10% and he sits above the top 15% for the export index. His dam has had a faultless record with 3 calves in a row from 3 restricted joining periods and with a scrotal size EBV in the top 20% he will breed fertility too. Weight and SS 20.6:18: 676kg and 40cm.

NOTES: An extremely quiet and very appealing polled grandson of 'Teddy', he has high growth EBVs in the top 10% for 400D and 600D. Also in the top 15% for carcase weight places him in the top 10% for the domestic index and top 15% for the export index. He is the first calf out of the last and final cows bought from Dads 'Montpellier' herd in 2015. Weight and SS 20.6.18: 668kg and 36cm.

DAM: MON020302 MONTPELLIER 0302

NOTES: He is out of our oldest extra fertile and super-duper longevity dam who is 16 1/2 years old and is PTIC with her 14th calf in a row. His dam is one of the original Montpellier (MON) cows I bought from Dad's herd in Rockhampton in 2005. He is built like a brick which matches his EMA EBV of 4.5 putting him in the top 1% for the breed as well as being in the top 10%-15% for days to calving, rib and rump fat EBVs. This compact bull is the perfect match for tall cows (The 'Cashcow' research project results showed that the percentage pregnant was 6% lower in taller cows (hip height >139cm) and calf loss was 4% higher compared to that in shorter cows (hip height <133cm). Weight and SS 20.6.18: 596kg and 32cm.

NOTES: We used this gorgeous quiet polled bull over maiden heifers last joining season when he was 14mths old. A polled above average growth bull, with a fantastic Days to calving EBV of -5.9, puts him in the top 10% for this fertility trait. He is also in the top 5% on the export index. His dam has had 6 calves in a row from 6 restricted joining periods. With these figures he is destined to improve herd productivity. Weight and SS 20.6.18: 632kg and 39cm.

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

ARTICLE I - GENERAL

1. These conditions apply to all livestock auctions conducted by the Department of Agriculture, Republic of the Philippines.
2. These conditions apply to all livestock auctions conducted by the Department of Agriculture, Republic of the Philippines.
3. These conditions apply to all livestock auctions conducted by the Department of Agriculture, Republic of the Philippines.

ARTICLE II - DEFINITIONS

1. "Livestock" means all animals, including but not limited to, cattle, horses, pigs, goats, sheep, and poultry, that are used for food, fiber, or other purposes.
2. "Auctioneer" means the person or persons who are authorized to conduct the auction on behalf of the Department of Agriculture, Republic of the Philippines.
3. "Buyer" means the person or persons who purchase the livestock at the auction.
4. "Seller" means the person or persons who sell the livestock at the auction.
5. "Livestock Auction" means the sale of livestock by public auction.
6. "Livestock Auction Terms and Conditions of Sale" means the set of rules and regulations that govern the sale of livestock by public auction.
7. "Livestock Auctioneer" means the person or persons who are authorized to conduct the auction on behalf of the Department of Agriculture, Republic of the Philippines.
8. "Livestock Buyer" means the person or persons who purchase the livestock at the auction.
9. "Livestock Seller" means the person or persons who sell the livestock at the auction.
10. "Livestock Auctioneer's Office" means the office of the auctioneer.
11. "Livestock Buyer's Office" means the office of the buyer.
12. "Livestock Seller's Office" means the office of the seller.
13. "Livestock Auctioneer's Office" means the office of the auctioneer.
14. "Livestock Buyer's Office" means the office of the buyer.
15. "Livestock Seller's Office" means the office of the seller.

ARTICLE III - AUCTIONEER'S OBLIGATIONS

1. The auctioneer shall be responsible for the sale of the livestock at the auction.
2. The auctioneer shall be responsible for the sale of the livestock at the auction.
3. The auctioneer shall be responsible for the sale of the livestock at the auction.
4. The auctioneer shall be responsible for the sale of the livestock at the auction.
5. The auctioneer shall be responsible for the sale of the livestock at the auction.
6. The auctioneer shall be responsible for the sale of the livestock at the auction.
7. The auctioneer shall be responsible for the sale of the livestock at the auction.
8. The auctioneer shall be responsible for the sale of the livestock at the auction.
9. The auctioneer shall be responsible for the sale of the livestock at the auction.
10. The auctioneer shall be responsible for the sale of the livestock at the auction.
11. The auctioneer shall be responsible for the sale of the livestock at the auction.
12. The auctioneer shall be responsible for the sale of the livestock at the auction.
13. The auctioneer shall be responsible for the sale of the livestock at the auction.
14. The auctioneer shall be responsible for the sale of the livestock at the auction.
15. The auctioneer shall be responsible for the sale of the livestock at the auction.

ARTICLE IV - BUYER'S OBLIGATIONS

1. The buyer shall be responsible for the purchase of the livestock at the auction.
2. The buyer shall be responsible for the purchase of the livestock at the auction.
3. The buyer shall be responsible for the purchase of the livestock at the auction.
4. The buyer shall be responsible for the purchase of the livestock at the auction.
5. The buyer shall be responsible for the purchase of the livestock at the auction.
6. The buyer shall be responsible for the purchase of the livestock at the auction.
7. The buyer shall be responsible for the purchase of the livestock at the auction.
8. The buyer shall be responsible for the purchase of the livestock at the auction.
9. The buyer shall be responsible for the purchase of the livestock at the auction.
10. The buyer shall be responsible for the purchase of the livestock at the auction.
11. The buyer shall be responsible for the purchase of the livestock at the auction.
12. The buyer shall be responsible for the purchase of the livestock at the auction.
13. The buyer shall be responsible for the purchase of the livestock at the auction.
14. The buyer shall be responsible for the purchase of the livestock at the auction.
15. The buyer shall be responsible for the purchase of the livestock at the auction.

1. The seller shall be responsible for the sale of the livestock at the auction.
2. The seller shall be responsible for the sale of the livestock at the auction.
3. The seller shall be responsible for the sale of the livestock at the auction.
4. The seller shall be responsible for the sale of the livestock at the auction.
5. The seller shall be responsible for the sale of the livestock at the auction.
6. The seller shall be responsible for the sale of the livestock at the auction.
7. The seller shall be responsible for the sale of the livestock at the auction.
8. The seller shall be responsible for the sale of the livestock at the auction.
9. The seller shall be responsible for the sale of the livestock at the auction.
10. The seller shall be responsible for the sale of the livestock at the auction.
11. The seller shall be responsible for the sale of the livestock at the auction.
12. The seller shall be responsible for the sale of the livestock at the auction.
13. The seller shall be responsible for the sale of the livestock at the auction.
14. The seller shall be responsible for the sale of the livestock at the auction.
15. The seller shall be responsible for the sale of the livestock at the auction.

1. The Department of Agriculture, Republic of the Philippines, shall be responsible for the sale of the livestock at the auction.

BBSE BULL BREEDING SOUNDNESS EVALUATION **Under the BBSE Bull Breeding Soundness** **Evaluation run by the ACV the following is stated.**

Motility For Live Rate: *Fail under 30%*
 Pass is given for 30 to 59%
 Tick is 60% or higher

Morphology: *Fail under 50%*
 P level pass is 50 to 69%
 Tick for 70% and over

The standards for Crush-side Semen and Sperm Morphology

Crush-side Semen evaluation and laboratory evaluation of Sperm Morphology are strong indicators of whether a bull is fertile or sub-fertile. If a physically-normal bull is rated as having passed these evaluations, he is expected to be fertile, ie, if mated, he can impregnate (pregnant at day 42 of gestation) by natural service at least 60% and 90% of 50 normal, cycling, disease-free females within 3 and 9 weeks, respectively.

The ACV has 2 pass levels for semen evaluation.

The highest level -Tick - indicates that the bull is fertile with respect to the category assessed and has 60% or higher progressively forward motile sperm. Further, it is very likely that the semen of this bull will be fertile after freezing. The lower level - P - was introduced to indicate that a bull may be fertile under natural mating, but it is likely his semen is not suitable for freezing.

The P level is given to bulls with between 30 and 59% motile sperm in Crush-side Semen evaluation. Bulls have to pass thresholds for eight Sperm Morphology categories and 70% or higher normal sperm, as assessed by an accredited sperm morphologist, to gain a tick for this assessment category.

For a P-level pass, this includes having between 50% and 69% normal sperm.

It is possible that physically-normal, P-level bulls, and especially those close to the lower threshold, may be shown to be less than fully fertile when mated. Such bulls are acceptable under multiple-sire mating, but veterinary advice should be considered before single-sire mating of such bulls.
