

OPERATIONS MANAGER

Coomalie Holding Depot is a Department of Agriculture and Water Resources Registered Premises for preparation of live animal export. The quarantine facility is located within an hour from Darwin.

The Operations Manager will be responsible for all aspects of the depot including but not limited to:

- Liaison with the live exporter and overseas clients to ensure importing country requirements are met
- Compliance of the Exporter Supply Chain Assurance System (ESCAS) related procedures and documentation
- Adherence to The Australian Standards for the Export of Livestock (ASEL) 2011 and Export Control (Animals) Orders
- Strong leadership skills to create a driven team through effective communication and professional conduct
- Receiving cattle including pen management, ordering of commodities, processing cattle to export requirements
- Importantly carry out all activities in accordance with industry best practice, low stress handling and animal welfare
- Continually improve Coomalie Holding Depot with the Managing Director and Veterinarian to be an industry leading facility

Previous experience and expertise in a similar role will be highly regarded. A competitive remuneration package available.
