

AUSVISION RURAL SERVICES

FEEDLOT MANAGER – NARROGIN BEEF

Narrogin Beef Feedlot, located at Narrogin in Western Australia, is part of the Ausvision Rural Services portfolio, which is an integrated live export and farming enterprise in association with Livestock Shipping Services.

Narrogin Beef Feedlot operates as a Registered Premise primarily servicing the Live Export industry, currently licensed for 10,000 head.

The Feedlot Manager is responsible for all aspects of the feedlot operation. Working with our livestock export team the manager will coordinate all day to day operations including livestock, protocoling, feeding, administration and maintenance. Furthermore, the position will be responsible for the implementation of new initiatives and improving feedlot efficiencies. Our manager will establish high standards and be customer focused in their approach.

Whilst experienced applicants are sought, those looking to progress to the next step in their career are also encouraged to apply.

Knowledge and Abilities:

Detailed knowledge of feedlot and registered premise operations;

An understanding of the Livestock Export industry requirements including protocol management and the Australian Standards for the Export of Livestock (ASEL);

Exceptional people and communication skills;

Demonstrated strong staff management;

Detailed record keeping;

The ability to prioritise and delegate tasks;

Strong spreadsheet modelling capability;

Effective time management;

Effective problem solving;

The successful applicant will be a positive, self-starter who is honest, reliable and willing to try new ideas. We are looking for someone who is people focused and keen to make a positive impact.
