

Manager

Located 60kms north of St George, an opportunity to manage cattle breeding and farming properties “Strathmere” and “Beardie” has become available. The role would involve all aspects of management including overseeing operations for up to 6000 head of cattle, implementation of high animal welfare standards, WH&S program, servicing and maintenance of station equipment and vehicles, supervision of farming contractors and reporting to Livestock General Manager.

Applicants must have experience in the following areas: mustering on horse and motor bike, maintaining fencing and water infrastructure, good communication skills, proficient record keeping mechanical and welding skills would be an advantage.

A renovated 4 bedroom, air-conditioned homestead in an attractive setting overlooking the Balonne River is available for the successful applicant.
