

Engineering Manager

The Northern Cooperative Meat Company Ltd (NCMC) is a leading export food processor with production facilities at Casino and Booyong near Lismore in the Northern Rivers area of the NSW far north coast.

We are seeking a strong leader who can develop systems and people to achieve a strong positive culture between engineering and processing operations.

The Engineering Manager will be responsible for:

- Providing guidance to a highly skilled and motivated team that is proactive and rigorous in maximising plant and equipment uptime and output
- Mentoring and lead a diverse technical team and, with the Planning Supervisor, ensure all projects are completed correctly and on schedule
- Supporting the Maintenance Supervisors to appropriately allocate tasks, manage leave, timesheets, performance management and career development
- Innovating processes to drive compliance, accountability and security
- Monitor down times and conduct root-cause analysis of all equipment failure and establish controls to prevent reoccurrence
- Monitor and analyse maintenance costs and ensure they are within budget

The successful applicant will possess the following skills:

- Ability to demonstrate strong project management skills
- Collaborative management style
- Strong analytical, problem solving and communication skills
- Ability to drive rapid change and continuous improvement
- Financial management skills
- Knowledge of modern preventative maintenance practices
- Tertiary qualifications in Engineering or relevant years of experience
- Experience within the meat industry desirable

To apply for this exciting and rewarding opportunity, please submit written applications marked attention:
