

Livestock Manager

A position exists for a highly motivated and progressive person to join the management team of a family owned 20,000 head feedlot situated in the South Burnett Region. The successful applicant will have experience within a feedlot environment, who is a natural leader and can maintain a high performing livestock team.

You will share our commitment to the health and welfare of our people and animals, and you have an uncompromising approach to working safely and ensuring quality results.

The successful applicant will be responsible for:

- Reporting to management
- Supervision and training of the livestock team
- Record keeping and QA procedures
- Cattle intake, drafting and shipping
- Animal health & Welfare

A salary package based on experience and potential will be negotiated with the successful applicant.

Expression of interest should be forwarded to:
