

Station Manager

We are seeking a motivated and experienced Manager for Neumayer Valley Station located in QLD's Gulf Region approximately 290km north of Cloncurry. Neumayer Valley is a well-resourced breeding property currently running 18,000 Brahman cattle across 143,000ha. Applicants must be experienced in all aspects of northern beef cattle management, station operations and maintenance and operation of plant & equipment.

The Manager will be responsible for the day to day operation of the station, animal welfare, staff recruitment, supervision and training, general maintenance & repairs of plant, waters, buildings, roads, fencing & yards. Reporting to the General Manager and owner, you will have hands-on involvement in planning, future strategy and budgeting.

Applicants must be able to demonstrate strong communication and leadership skills to delegate, supervise and train staff whilst maintaining a high degree of efficiency and workplace safety. Excellent record keeping and sound computer literacy skills for reporting, logistics and procurement are required.

A competitive salary package will be negotiated with the successful applicant.
