

KENNY'S CREEK

## ASSISTANT MANAGER

The position involves the management of the mixed farming enterprise "Hillgrove", 591 Murringo Road, Boorowa NSW. The successful applicant will report to a senior manager who is based nearby at Breakfast Creek Station.

The duties include managing the complete enterprise mix on the property. This currently includes a cropping and pasture program and the genetic operation of Kenny's Creek Angus. The genetic management component of this role would be supported by the use of external consultants where deemed necessary or advantageous. Traditionally, a prime lamb operation also forms part of the enterprise mix.

The position calls on the leadership of a contracting group which covers a range of farming and husbandry activities.

A recently renovated three-bedroom house in its own garden setting is available.

Purpose of role:

- To manage a quality mixed farm and stud enterprise, ensuring customer satisfaction and the generation of a premium product
- To oversee team members
- To liaise with advisors and consultants to ensure the operation is safe, profitable and operating according to its legal responsibilities
- To manage the farm and related activities

Other duties:

- Budget preparation and management
- Expenditure management
- Visible leadership within all areas of the operation
- Supervise and direct team to ensure all Workplace Health and Safety policies and QA procedures are adhered to
